25X1

2. In view of the Contractor's remarks as to the im-
practicability of soliciting bidders for the resale of the
residual material, it is requested that OC/ED be consulted
regarding possible usage or manner of disposition.

3. It is further requested that the process of screening
and disposition be expedited in order that the Contractor may
utilize the space now used for storage of this material.

*Memorandum**30 Apr. 1958*

Chief, Engineering Division/UC

LHC

Contracting Officer

Contracts No. RD-79. Task Order No. 7 and (RD)XG-558
with [redacted]

25X1

1. Transmitted herewith are two (2) copies of two (2) letters from the subject Contractor dated March 3, 1958 and April 15, 1958, respectively, concerning property under the subject contracts.

2. In his letter of April 15, 1958, the Contractor has requested that the items listed therein be transferred to Contract No. (RD)XG-558. This is supplemental to his request of April 3, 1958, to transfer GFL to Contract No. (RD)XG-558.

3. For your information, the earlier request was forwarded to your office through the Stock Management and Requirements Section/SD on April 21, 1958.

4. The Contractor has also proposed in his letter of March 3, 1958, to set up a bailment or retainer contract in order to facilitate record keeping for the control of Government-furnished and acquired property.

5. Because all of the Agency property now located at the Contractor's plant is being utilized in Commo's projects, this proposal appears to have a great deal of merit, and there would not be too much difficulty in controlling this type of contract.

25X1

6. However, it has been noticed in the past that although [redacted] considered equipment necessary for the furtherance of Agency's projects, your office did not concur and the equipment was picked up and returned.

25X1

7. It therefore would be appreciated if your office would review the Contractor's letters and indicate to this office by memorandum, whether you agree or disagree with his suggestions.
